About Genticel

Genticel is a French biopharmaceutical company specialized in the development of therapeutic vaccines aimed at eliminating, at an early stage, the human papillomavirus (HPV) responsible for cervical cancer.

Genticel is developing ProCervix, a first therapeutic vaccine in Phase II clinical trials, designed to eliminate cervical cells infected with HPV 16 and/or HPV 18. The Company has also established Vaxiclase, a technology platform ideally adapted for use in early-intervention immunotherapies against multiple infectious or cancerous diseases. This platform is being used to develop a second therapeutic vaccine candidate, now in its preclinical stage, targeting six of the most pertinent HPV strains in terms of global epidemiology.

Genticel is based in Paris and Toulouse and was awarded the 2013 Innovation Prize by the 'Grands Prix de l'Economie'.

Since April 4, 2014, Genticel shares have been listed on the regulated Euronext markets in Paris and Brussels.
